Rev. Diana Johnson, IM, RScM, with Sherri Dotter, RScP,
Chris Johnson, RScP, & musician Marsh Brodeur

An Independent Interfaith Community
Practicing the Possible Through Prayer

Taizé

Call to Awareness – 3 Bells

Sherri – Opening Prayer

Rev. Diana – Good morning, and welcome. If you're new with us here this morning, my name is Rev. Diana Johnson, Pastor and Spiritual Director here at Mystic Heart. Thank you for joining us for Taizé Meditation this morning. Together, we'll begin with a couple of slow, deep breaths, allowing yourself to fully arrive in the here and now…and feeling the Power and Connection generated as we join our voices in musical prayer.

Rev. Diana, Chris, & Marsh – Taizé Chants

- ***Welcome Home to Your Mystic Heart***, written by Diana & Chris Johnson
- ***God Is, I Am* by Eddie Watkins, Jr.**

Rev. Diana – By whatever name we call It…Source…Presence…The Great Mystery…Spirit…God…This One is all that is…the One Life expressing and experiencing Themselves as all of creation. We might call this the One Truth that underpins the twelve Spiritual Laws…the Universal Principles that are the thread running throughout the world's great traditions. These Precepts are the foundation for our Spirituality…the ***Radical Roots*** of our Practice. Grounding our faith in these Principles makes it possible for us to share an Interfaith Experience…they offer points of agreement, a shared experience from which we can build bridges.

As we give attention to what we share in common, take another slow, deep breath in, and release it, allowing your body to relax completely…letting the chair fully support you…settling more deeply into the Stillness…taking a moment to consciously connect with our Global Community, with our brothers and sisters of every form and expression. See with the mind's eye, a web of consciousness surrounding and infusing the planet…each of us a radiant spark of Divine Light… a sparkling jewel in Indra's Net… connected with every human being…with the two-legged and four-legged creatures…the winged beings of the air…the swimmers in the Sacred Waters and creepers upon Mother Earth… the plants that give us sustenance and purify our air… the lifeforms below the soil, and the soil itself… the water that flows freely, giving us our very lives…all inextricably connected to and by the Great Mystery… all beings of Radiant Light, the very Spirit of Love in form.

As we feel and know our oneness with All That Is, we acknowledge our responsibility to one another as human family, and as caretakers of this beautiful and life-giving planet. With every breath, and in every moment, we are sensing our Connection, allowing all lines of separation to dissolve…we are leaving an imprint of Oneness on all of Creation.

Our contemplations this month are centered around the idea that we might want to ***Think Again***…that sometimes the very ideas of which we are certain might be wrong…that some of the notions we hold as absolute truth may not be accurate…and that it serves us to approach life with a beginner's mind.

Even here and now, as I speak of what are called The Twelve Universal Principles of Spirituality, see them with fresh eyes…hear them with young ears…and listen to what the Voice of your Inner Wisdom has to say. If your Mystic Heart finds agreement with these Principles…if you can place your faith in them and find comfort, allow them to govern your life. And if not, your Deepest Knowing will guide you to what feels True for you. (Excerpted from Julia Lim's article in *The Medium*, based on Dan Millman's *12 Laws of Spirit*.)

First we consider *The Law of Balance*, or finding the Middle Way. *The Law of Balance* applies to our body, mind and emotions…to all levels of our being. It reminds us that anything we do, we can overdo or underdo. If the pendulum of our lives or habits swings too far to one side, it will inevitably swing to the other. You can apply *the Law of Balance* by noticing your imbalances. *The Law of Balance* assures us that those who give freely, in the spirit of love and generosity, receive in abundance. Take a moment to notice your body's response. Does this ring true?

Turning now to *The Law of Choices* or reclaiming our power. We are both burdened and blessed by the great responsibility of free will – the power of choice. Our future and destiny is determined, in large part, by the choices we make now. We cannot always control our circumstances, but we can and do choose our response to whatever arises. Reclaiming the power of choice, we find the courage to live fully in the world, making choices from the heart and intuitive wisdom, rather than fear, reaction or habit. Take a moment to notice…

We consider now *The Law of Process*, or taking life step-by-step. Process transforms any journey into a series of small steps, taken one by one, to reach a goal. Process transcends time…it teaches patience…it rests on a solid foundation of careful preparation…and embodies trust in our unfolding potential. The Spiritual Path we call Life is always full of changes. Step by step we adapt, change, grow…This is *The Law of Process* at work. Notice…

Join me in reflecting on *The Law of Presence or liv*ing in the moment. Time is a paradox, stretching between a "past and future" that have no reality except in our own minds. The idea of time is a convention of thought and language, a social agreement.

Here is the deeper truth, “We have only this Moment.” You can think and visualize the past and future, but you can only live in the present moment.

Turning now to *The Law of Compassion* or awakening our humanity. Compassion is the recognition that we are each doing the best we can within the limits of our current beliefs and capacities. It calls us to approach one another with sincere care and curiosity…what is it like to be you, with all that life has dealt you? And how can I best support, rather than judge, you? *The Law of Compassion* calls us to offer Grace…to ourselves and to one another.

We consider now *The Law of Faith*, or trusting in Spirit. This Law states that what we place our Faith in is what we will experience. Faith is our direct link to Universal Wisdom…it reminds us that we know more than what our minds have learned…that our hearts are wise and can be trusted…and that we have only to look, listen, and trust the Love and Wisdom of Divine Presence working through us.

Allowing our reflections to center on *The Law of Expectation*, closely linked to *The Law of Faith*. This Law tells us that what we assume, expect, or believe creates and colors our experience. By expanding our deepest beliefs about what is possible, we change our experience of life. Any expectation will attract the evidence of the assumption. We find what we expect to find…we see what we expect to see.

Turning now to *The Law of Integrity*…Integrity means living and acting in alignment with spiritual law and from our highest vision and capacities. *The Law of Integrity* says that as we recognize, accept and outwardly express our authentic interior reality, our lives become more Peaceful and Contented. Living by *The Law of Integrity* brings a sense of Freedom.

Chris – Guided Meditation

We often speak of the Twelve Laws of Spirit as if they were discrete… but the Truth is that they are all intertwined… interdependent… Spiritual Law is holistic… all-encompassing… One overarching Principle that expresses in myriad ways… we artificially isolate the different aspects of Law in order to better understand them…

Mystics throughout the ages have explored the many facets of Spiritual Principle… while always remembering that it is One Law… Lao Tzu called it *the Tao*… Rabbi Yeshua called it *the Way*… the Prophet Muhammad called it *Al-Sir**at** al-Mustaq**im***… Hindu yogis call it *Karma*… It is how the Universe creates and evolves itSelf…

It is like the flow of a mighty river… when we struggle against the current, we don’t make much headway… we may get into serious trouble… but when we surrender to it… work with it… we are empowered beyond measure… When we align our lives with Spiritual Law, it is the same… we are in tune with the Infinite…

We come into Spiritual Alignment one facet at a time… it is a *Process*… we bring our lives into *Balance*… take responsibility for our *Choices*… practice being fully *Present*…

We exercise and grow our *Compassion, Faith,* and *Expectancy*… and *Integrate* them into every aspect of our lives… This is what Paul meant by *praying without ceasing…*

During our three minutes of Sacred Silence this morning, I invite you to contemplate one of the Laws Rev. Diana spoke about… perhaps one stood out in particular for you… an area where you desire more growth… ask the Infinite Wisdom of Spirit within you what your next steps might be… what small actions you can implement… Surrender to the *Process*… even if it means taking baby steps… enlightenment doesn't come overnight… Trust the *Process*, with as much faith and expectancy as you can muster…

Silence – 3:00

O Holy One, thank you for your Divine Presence in this place… for your Infinite Love filling each one's heart… for your Boundless Wisdom that bubbles up from within us… guiding us into an ever-deeper understanding of *The Way*… May we always remember to seek Spiritual Truth at your Holy Temple… the mystic heart within us…

In humankind's infancy, we were superstitious… we thought God blessed good people and punished the bad ones… but Spiritual Law doesn't punish… it guides… when we have difficulties, it just means we are off course… Challenges are simply invitations to look more closely… pray… meditate… find where we are out of alignment…

Returning now to Rev. Diana's Taizé meditation, we open our hearts and minds to a greater understanding of Spiritual Truth… we receive the nuggets of her inspiration and wisdom as seeds within us… where they grow their *Radical Roots*…

Rev. Diana – We return now to The Laws of Spirit by considering *The Law of Action*. No matter what we feel or know, no matter what our potential gifts or talents, only action brings them to life. We may understand concepts such as commitment, courage and love, but we only truly *know* them when we give them form. Doing leads to embodiment…action turns knowledge to Wisdom.

Again, noticing…does this ring true?

Next we consider *The Law of Cycles*…The natural world moves in rhythms, patterns and cycles…the passing of the seasons…the movement of the stars…the ebb and flow of the tides. The seasons do not push one another, neither do clouds race across the sky. All things happen in their own time…rising and falling like ocean waves…sprouting, growing, bearing fruit, and decaying…all in the circles of time. The natural world dances to the music of change. Like seeds and cycles, so go our lives. One cycle ending, only to begin another. Noticing…

We turn now to *The Law of Surrender*. Surrender means accepting this moment, this body, and this life just as it is, with open arms. Surrender involves getting out of our own way and living in accord with a Higher Will, expressed as the Wisdom of the Heart. Far more than passive acceptance, surrender uses every challenge as a means of spiritual growth and expanded awareness. It is a shift in perspective. The Law of

Surrender says that the more we can flow with life's circumstances, letting go of attachments and preferences, the greater freedom and peace we will experience.

And finally, reflecting on *The Law of Unity*, or remembering our Connection…it appears we are back where we started, with our Global Connection. *The Law of Unity* says, although we appear on Earth as separate beings with diverse destinies, that in Truth, we (and all beings) are actually unique expressions of One Life. *The Law of Unity* calls forth the Great Realization that we are One Consciousness, manifesting in different bodies…One Source, experiencing Itself in Infinite Expression.

The Twelve Laws of Spirit…the *Radical Roots* of a strong Spiritual Life…the common threads of Truth that run throughout the world's traditions, and that offer the basis for our shared reflections and conversations each week, whatever our personal path may be…what a blessing to share in these Universal Principles…to share our time and attention, contemplation and devotion.

Let's close in prayer…

I'm beginning with a quote from Dostoyevsky, from The Brothers Karamazov: "Love all Creation. The whole and every grain of sand in it. Love every leaf, and every ray of light. Love the plants. Love the animals. Love everything. If you love everything you will perceive the Divine Mystery in all things. Once you perceive it you will comprehend it better every day. And you will come, at last, to love the whole world with an all-embracing love."

Divine Mystery, that lives, moves, and has its being in all things…I know and experience your Loving Presence now. I trust and know You as the One Life, forever expressing as my Life, and as the Life of every being. I Am so grateful for my deep faith, and for my trust in the Laws of Spirit…their eternal Nature…their Constancy and Infallibility. Knowing that they are always at work brings a greater attention to my thoughts, words, and actions…a greater awareness to how I move through the world.

I allow the Law of Balance to Guide my way as I attend to the choices I make every day. I understand and make best use of the Law of Process, thoughtfully taking one step at a time, moving through this beautiful and precious stage of my life. I practice Presence and Compassion as I interact with those who cross my path. I consciously place my faith and expectation in Goodness unfolding. I walk with Integrity, expressing myself authentically. Knowing that true Wisdom comes only with action, I let go of all resistance, willingly taking the steps that Spirit Guides me to take. I surrender daily to Life as it is, trusting in Its cycles to carry me Gracefully to my next yet to be.

In deep faith that I Am one with the Great Mystery, I give thanks for all that I have been given…for the countless blessings, large and small, that shower down upon me every day…for this safe space to gather with spiritual family…for our diverse perspectives that make us stronger…and for our points of agreement that give us a sense of belonging and connection. Thank you, Great Spirit, for bringing us safely together this

morning, and for the time we have yet to share in Conversation and the breaking of bread. We are blessed beyond measure.

Trusting that a prayer spoken and deeply felt is a prayer answered, I release my Word into the Great Unknown, in deep faith that it is already heard, acknowledged, and being brought into form and experience, right here and right now. And so I let it be. And so it is! Amen!

I invite us now to return our awareness to this moment, to our bodies… our senses… the atmosphere in the room… to gently open our eyes as it feels right, and to behold whatever is before us. Take a look around at who is sharing in celebration this morning… your Spiritual Family and support system… take a moment to honor each one for sharing space with you this morning…

Love Offering

As we prepare to close this morning's Taizé Meditation, we offer the opportunity for you to share of your financial good in support of the work we do, should you care to do so.

It is by your generous gifts that we can continue the Good Work of supporting your spiritual evolution and engaging in the greater Community.

If you're joining us online, at mysticheart.org you can use a PayPal Donate Button, a Venmo qr code, or our mailing address to make your contribution. We thank you in advance for your heartfelt generosity.

- **Everybody Moves: Accessible Dance Movement and Meditation, a bi-weekly event, starting Wednesday, October 7th from 4-5 pm.**

Rev. Diana, Chris, & Marsh – Closing Song

- ***A Soul's Blessing***, written by Chris Johnson

Conscious Conversation

Sherri – Opening Prayer

Rev. Diana – Welcome back. If you're new with us here this morning, my name is Chris Johnson, and I am a credentialed Prayer Practitioner here at Mystic Heart

Spiritual Center. We are an Independent Interfaith Community that teaches Universal Principles and Practical Spirituality, tracing the common threads of Truth that run through all the world's great spiritual traditions. Our job is to point you inward, to the Wisdom that lives within your own Mystic Heart.

Are you ready to get this Conversation going with a little bit of music? Here we go.

Rev. Diana, Chris, & Marsh – Opening Music

- ***Welcome to the Mystic Heart***, written by Diana & Chris Johnson
- ***One Big Family***, written by Robin Hackett & Gary Lynn Floyd
- ***My Religion is Kindness (chorus only)*** by Karen Drucker

Rev. Diana – Imagine that! A religion of kindness…church as Nature…God as a feeling…practicing be conscious and forgiving…what a concept. It sounds a little bit like living in a Love-Soaked World. Let's collectively direct our Creative Energies toward that Vision right now…let's give the Universe a blueprint for the creation of the world we wish for our children's children. Remember what Chris said last week, no one's off the hook! No innocent bystanders…

So I invite you now to settle into the liminal space of Absolute Potential…take a slow, deep breath, and consciously engage every bit of creative power and emotion at your command.

We envision ourselves now in a world of our creation… where all humans recognize, and live from, their inherent Freedom… from their deepest Wisdom and Generosity, and their most Loving nature… thoughtful of the impact their thoughts, words, and actions have on one another, the community, and the planet… ours is a world without greed, where there is abundance in simply having enough… where nutritious food, clean water and air are readily available to all beings… where warm, comfortable, and affordable housing is universal… where all beings feel a sense of safety, belonging, and contribution… We affirm these many blessings with a Powerful *Yes!*

Ours is a world where leaders practice integrity and ethical behavior, leading by example and inspiring trust and engagement among people… a world where policies and social systems support mental and physical health, education, and healthy relationships, and encourage ecological responsibility and sustainability.

In this world of our creation, all beings work and play at whatever feeds their soul and are well compensated for their Service…where authenticity and vulnerability are not only welcomed but celebrated…where the Peace we cultivate within ourselves shows up as a world free of violence, hatred, or indifference…where freedom of thought and open, respectful conversation is modeled, supported and promoted. We affirm these many blessings with a Powerful *Yes!*

Ours is a world where there is respect among people of all nations, and for the fundamental dignity of every human… where the Love that we are here to share is

given freely to whomever our hearts are called to love… where we have moved beyond all lines of separation, and live as one human family, caring for one beautiful planet with the reverence she deserves.

We recognize that transformation is an on-going process, and especially in times of great change, people benefit from working, playing, and simply being together. And so this Community stands as an open and welcoming place for all who seek support, belonging, and a sense of Family… it redefines *Church* as a place of Self-Discovery, Authenticity, Kindness, Radical Inclusion, and Unconditional Love. We affirm these many blessings with a Powerful *Yes!*

It is by the Power and Intelligence of the One Life moving through each one of *us* that this prayer is acted upon, answered even as it is spoken. As one by one, we commit to acting upon and living *into* and *from* this Vision, it cannot be otherwise… we live in a Responsive Universe! Our Word carries Power. And so it is with deep faith, profound gratitude and great Joy that I release my Word to the ***One Who Gets It Done***…And so it is!…Amen!

Bringing awareness back to the body, to the room, to this beautiful life, and to the Spiritual Family that is sharing this space with you this morning… There has been a shift in energy… We have just set a Powerful intention… Our prayer is rippling out into the race consciousness, doing its Good Work. And there's nothing that anyone can do about it… our loving act of defiance for this morning. Doesn't it feel good?

Our theme this month is ***Think Again***, and this morning we explore the ***Radical Roots*** of the New Thought/Ancient Wisdom traditions.

If you were here for Taizé, you'll know that we spent time in reflection, considering Twelve Spiritual Laws that are the Universal Principles that allow us to gather each week, each of us with our own paths and traditions. I asked that we listen to each one, then noticed what the body had to say, what the Inner Wisdom had to offer.

Who can remember what some of these Laws were? And what was the basic teaching of that Law?

(The Law of Balance; The Law of Choice; The Law of Process; The Law of Presence; The Law of Compassion; The Law of Faith; The Law of Expectation; The Law of Integrity; The Law of Action; The Law of Cycles; The Law of Surrender; and the Law of Unity)

We considered that these Principles are the ***Radical Roots*** from which our Spiritual lives can grow. Now I'm going to pivot to the ***Radical Roots*** of the New Thought/Ancient Wisdom tradition as a topic of Conscious Conversation.

First of all, what are some of the names that you think of when I say New Thought/Ancient Wisdom leaders or teachers? (Ernest Holmes, Thomas Troward, Charles and Myrtle Fillmore, Phineas Parkhurst Quimby, Emma Curtis Hopkins, Mary Baker Eddy, etc.)

These were all teachers from the Mind-Cure, or Mind-Over-Matter branch of the New Thought Movement.

Did you know that there were two other branches of that movement? Do you know what they were?

What are some of the familiar teachings that have come from the New Thought Movement? (Change your thinking, change your life; Mind over matter; the Law of Attraction; manifestation; it is a religion of personal responsibility, success and prosperity, etc.)

What do all these things have in common?

They are all about the individual. There is no responsibility for the collective built into the ways New Thought has developed. But is this how it started? Was this the intention? And is this the only or best use of this potentially powerful teaching?

I'd like to share a few quotes from Freedom from Discord, then we can talk about each one.

Read from pages 67-68

Shaming, deflection, and Spiritual gaslighting? What do you think about that?

Read from pages 68-69

What is your understanding of what you just heard?

(NT was originally a primarily women's movement, deeply tied into women's suffrage and social justice issues of all kinds; it was the industrial revolution that turned it in the direction of being a male-dominated manifestation and prosperity movement)

Read from pages 69-70

Thoughts? (It is impossible to disentangle the foundations of the Ancient Wisdom Traditions from the development of more modern traditions, such as New Thought. One is built upon or grown out of the others.)

Read from page 70

Who were the Transcendentalists?

What did they believe?

Although they were a wide a varied group of deep thinkers, they could agree on three principles:

1. The immanence of God – **What does that mean?**
2. Inward experience as the primary authority - **What does that mean?**
3. A rejection of all external authority – I think that one's pretty obvious to most of us in the room. You're not the boss of me!

Read from pages 72-74

Can you see the Transcendentalist influence on the NT Movement?

Read from page 75

So, what is Progressive, Liberal Christianity?

Read from pages 77-78

What do you think about that? Which churches in Redding are Progressive, Liberal Christian churches?

Rev. David concludes this chapter with these simple ideas…that originally, New Thought was aligned with social justice, progressive Christian principles, and the women's rights era; that at the dawn of capitalism in our country, white men rose to positions of leadership in the movement and the teaching of rugged individualism and material prosperity replaced earlier ideals; that this was a natural evolution of a movement in relationship with a changing world; that we need not admonish the movement for being a product of its time; but that it would be best served by being responsive to our time and context now.

He wrote that, "Clinging to an individualistic based teaching of personal responsibility, success, and promises of wealth in the midst of a collective groan and cry to address systemic inequity will lead only to a movement out of step with society and isolated to an audience of the privileged."

Our alternative is to embrace the evolutionary pull of something greater. The New Thought/Ancient Wisdom Tradition stands at the threshold of infinite potential to contribute to the healing of the planet through the laws of consciousness; the same is true for us as an Interfaith Community.

Read from page 81

Any final thoughts?

I'll close with a final quote from Rev. Dr. Emilie Townes.

> Liberation is about being on a journey, being in a movement. It is the process of coming into an awareness that there is definitely a better life for people to be had. Not just for myself but for all of us. The Church should be part of that. And where it is not, it's not the Church.

You go, girl!

Let's Close in prayer…

Thank you, Spirit, for this gift of Life… for the insights and ideas to ponder that have come forth this morning…for the countless ways you bless each one of us, every day. I know that this Spiritual Journey is a Journey of personal transformation, but it doesn't end there.

As we sang last month, I Am here for the greater Good of all. Wake me up, gently, in the places and times that I forget. Call me to greater awareness of the suffering of others and speak to me of what is mine to do. I willingly give, I willingly act, to help in the ways that I can.

Give me the strength and courage to *be* the change I wish to see in the world. May I offer a gentle, loving Presence wherever I go…present to my states of mind and heart, and to my thoughtful communication…awake…aware… responsive.

Thank you, Great Spirit, for this beautiful day…for this amazing and beautiful group of humans…for this safe and comfortable space…and for the Grace that brings us together each week to build bridges of understanding through Conscious Conversation…having conversations that matter.

Thank you for the countless hands that brought our food to the table today…from planting the seeds, growing and harvesting, packing, shopping, and cooking. May each one be blessed and know they are a blessing in this world.

I trust that our time together has been prayer enough, and so I rest now in Your Loving Presence, in faith that a prayer spoken and deeply felt is a prayer answered. May I have eyes to see and ears to hear all that unfolds from this moment on as answered prayer. I let go…I let God. And so it is! Amen!

Love Offering

Thank you so much for joining me here today. We're going to bring this part of the morning to a close, but before we do, we'd like to invite you to join in the celebration of the work we are doing in the world by sharing of your financial Good. If you are at home, you can go to **mysticheart.org** to use our Donate Button or to find our mailing address. We also have a Venmo qr code.

We are an independent, self-supporting organization, and your financial gifts are what make it possible for us to do our work and provide this beautiful and safe space to gather. We thank you in advance for your generous hearts and gifts.

As we pass our basket this morning, and getting ready to work in the Micro shelter garden this week, a little reminder…maybe you can lend a hand…

Offertory Music – *Grow a Garden*, by Formidable Vegetable
